Welcome home

Abbeyfield Worcester and Hereford Society Ltd is delighted to present Whiston Court, made up of 37 self contained one- and two-bedroom apartments designed for independent living for the over 55s to buy or rent within a supportive community environment.

For peace of mind, on-site support is available around the clock and services such as eating as a community once a day and help with cleaning make life just that little bit easier for older people.

Excellent facilities include a residents' lounge for socialising, a guest suite for visitors, and even a health and beauty suite.

Whiston Court can also accommodate extra care services which residents can arrange as and when required.

Assisted living - a lifestyle choice

Assisted living, sometimes called extra care, is the ideal choice for older people who wish to maintain their independence whilst making life a little easier in their retirement years.

Independence, with a little more help as and when it's needed

Whiston Court is especially suited to those ready to downsize without compromising on quality of life. Peace of mind, for both residents and their families, comes from a supportive, caring environment. On the social front, we eat a freshly prepared meal as a community once a day and there's always plenty to do with our busy events calendar.

Extra care services can also be arranged by residents and accommodated as their needs change over the years.

Abbeyfield
Making time for older people

Part of the Abbeyfield family

At Abbeyfield, we believe older people deserve time and respect. It's our mission to provide the best service of care and housing for all our residents, and to be a champion for older people. We have been a charitable housing organisation for nearly 60 years. Throughout this time our residents are always at the heart of what we do and the services we provide.

Like all local Abbeyfield societies, Abbeyfield Worcester and Hereford Society Ltd operates as a charity. We put people before profits and constantly seek new ways to improve quality of life for every resident.
